

# Flowers, Glass and Plate Preservation in Resin

Pricing listed below assumes that you have already dried out your own flowers. We will provide detailed instructions on how to best dry out flowers in both 3D and flat-pressed formats.

**Customers in Israel:** Deliver fresh or dried flowers to the studio at Nachal Micha 2/2, Bet Shemesh. Deliver or mail (with tracking) chuppah glass.

**Customers outside of Israel:** Once you have dried out your flowers, you will receive specific instructions for how to package and ship your dried flowers to us in Israel. You are responsible for arranging shipping and payment for shipping to Israel. Once your preservation is complete, we will mail your artwork back to you. There is an additional shipping charge from Israel to the USA. Please contact us for shipping pricing based on your project of choice.

**For all customers:** If you'd like us to dry out your flowers on your behalf, there is an additional 300 shekel service fee.

Wedding glass, laminated invitations or pictures can be incorporated into the preservations as well!

If you prefer, we can provide the flowers for you. You'll let us know the types and colors of flowers you'd like, and we'll source, dry, and preserve them to create the artwork. Contact us for pricing: +972 506705032
